14 MARIANNE PAPA: My name's Marianne,
15 M-A-R-I-A-N-N-E, Papa, P-A-P-A. And I'm here
16 representing myself as a concerned citizen. And my
17 feelings are that we're going to have this whether we
18 want it or not. So in the interest of the people in the
19 state, I advocate that we implement strong safeguards and
20 protections and that -- I don't know how to say it -- do
21 the job right.

22 And I'm supportive of working with the
23 university to develop research and a research-based
24 information so that we do know what's going on and we can
25 monitor things that are going on, what's happening with
0007

1 the land, what's happening with interactions, you know,
2 with the water and things like that, and that you start
3 with a good baseline data.
